A&B Computing is constantly on the look-out for well-written articles and programs for publication. If you feel that your efforts meet our standards, please feel free to submit your work to us for consideration for publication.

All submitted material should be printed or typed, double spaced. Any programs submitted should be listed (55 character width emphasised if possible). A cassette of the program alone will not be considered. All programs must come complete with a full explanation of the operation, and where relevant, the structure. We also require the program in machine readable form (cassette, 40 track 5¼", or 3" disc) plus any suitable screen photographs, printer dumps and so on.

All submissions will be acknowledged and the copyright in such works which will pass to Argus Specialist Publications Limited will be paid for at competitive rates. All work for consideration should be sent to the Editor at our Golden Square address.

### Checker..... 46

Well worth the wait. Error free entry of program listings. Highly practical. Automatic generation of check sum on line entry.

### Compressing Clever..... 92

Dave Carlos has been busy writing a new book. Here's a very useful extract.

## REVIEWS

### Murom..... 12

Trevor Attewell sounds out Beebug's music on chip.

### Paintpot..... 26

More subtle brushwork from Tony Self and his Mouse.

### Watford RAM board..... 28

The first 32K upgrade for the Model B.

### Plotmate..... 75

A friend indeed. A specialist plotter for the BBC.

### Intersheet..... 88

The best so far? It looks as though Computer Concepts have done it again.

## SOFTWARE

### Ally Pally..... 52

Taking on the crowds, and the kids! at an Acorn exhibition.

### Android..... 100

Target practice on a desolate alien planet.

## NEXT MONTH

Programming in the Shadows — Alan Rowley on how to fully utilise that extra memory and the Aries 32K board. Is it an upgrade to BBC Plus, or better? Electron ROM software. The latest Slogger Starword and Starstore, plus the Wizard Joystick interface.

Hard disc breakthrough — Solidisk's amazing Winchester package.

Video graphics. The background to the most exciting Beeb visuals we've seen.

Top printers tested. 80 important criteria.

Accelerator, AMX edge detector utility, Valiant turtle, keying with Concept and computers in the classroom.
